

About Us

Founded in 1997, CTechnology Solutions is a Queensland company, providing a range of Information Technology (IT) services and products to both Government and private sector organisations.

We have successfully delivered Business Intelligence strategies and solutions which incorporate best practice methodologies, using leading BI products. This includes designing, developing and supporting enterprise wide reporting solutions.

Our strong partnership with SAP BusinessObjects enables us to deliver value added products and services necessary to satisfy client requirements.

Our commitment to delivering high quality business solutions at a cost effective price and building strong, long- term relationships with our clients is core to our culture.

Proven Experience

- ERP reporting solution for a Utility organisation
- Implementation of the BusinessObjects Edge reporting solution for a mid-sized Queensland company
- Executive Dashboard reporting for IT Service Management within Queensland Government
- Implementation of Business Objects Edge within the Financial Services division of a large Queensland Government department
- Implementation of a Crystal reporting solution for a mid-sized bridge inspection company

CTechnology Solutions - Value Proposition

Strong track record

- Owned and Operating in Queensland, with local consultants for implementation and support.
- 12 years of successfully implementing business solutions.
- Delivered BI solutions to organisations such as Gold Coast City Council, Ergon Energy, SPARQ Solutions and others.
- Benefit from our past experiences.

End to End BI services

- Strategy Development: developing strategies and architectures that satisfy your current and future business needs.
- Project Management: scoping projects, selecting solutions that support business requirements and deliver benefits.
- Service Delivery: specialising in the development, maintenance and implementation of BI solutions that deliver outcomes.
- Engage with us for all phases or just a few.

Commitment through service. Our services:

- Are practical: Simple, cost-effective, usable and bring you immediate benefits.
- Add Value: contributing positively towards your goals by providing consultants with strong skills, values and experience and managing them to achieve your vision.
- Fit in with your overall strategy: our goals are client satisfaction, a focus on results, team empowerment and continuous improvement.

Client Partnerships

- We ensure that our consultants know your culture, environment and are dedicated to ensure that your BI strategy is followed throughout the project life cycle.
- We like to keep the service delivery process simple and effective.
